WORK EXPERIENCE

Software Developer Intern IBM

05/2021 - 08/2022

Markham, Ontario, Canada

Achievements/Tasks

- Worked as part of an Agile tools team to build solutions and improve processes for a department of over 60 Content Designers who provide customer documentation.
- Re-architected an internal tool to include pagination in VueJS and Python, improving page load time by 60%.
- Built a full-stack web application using React, NodeJS, and IBM Carbon Design System that served data to the front-end from JSON files, which is actively being used by Content Designers, while testing for bugs, speed, and documenting processes.
- Mentored and on-boarded new intern and apprentice to the team by setting aside 1-on-1 time to train them on the team's major projects and processes, and continuously recommend learning resources to improve their software development skills.

Web Developer Western University

10/2019 - 04/2020

London, Ontario, Canada

Achievements/Tasks

- Worked with a professor to build a JavaScript web application used for presenting a final research project.
- Communicated and collaborated with the professor and a team of designers to determine solutions for the best user experience.

PERSONAL PROJECTS

iLingual [JavaScript, HTML, CSS]

- SheHacks Winner project that allows users to gain access to interpretation services for medical needs and find the nearest health care professionals. (See [Devpost](#) for more details)

Portfolio Website [Bootstrap, jQuery, JavaScript, HTML, CSS]

- A user-friendly and easy-to-read static website built from scratch to showcase my previous experiences, technical skills and software projects.

iClinic [Java, JavaFX, SQL]

- A fully configurable GUI clinic portal developed to provide an interface for clinicians to efficiently automate their paper-based processes and maintain their accreditations.

EDUCATION

Bachelor of Engineering Science, Software Engineering

Western University

09/2018 - Present

London, Ontario, Canada

Courses

- Data Structures & Algorithms
- Software Project Management
- Software Architecture and Design
- Operating Systems

TECHNICAL SKILLS

JavaScript

React

NodeJS

IBM Cloud

AWS

HTML/CSS

VueJS

Git

Angular

Netlify

Figma

Unity

UI/UX

Cisco Packet Tracer
