## Education

---

### Bachelor of Engineering Science, Software Engineering @ Western University

Sept 2018 – April 2022 // London, ON

▸ GPA: 3.8.

## Work Experience

---

### Frontend Web Developer @ Western University

Oct 2019 – April 2020 // London, ON

- Developed an interactive website using JavaScript, HTML, and CSS.
- Designed and prepared sample pages, design plans, and website structures to present to the supervisor during weekly meetings.
- Communicated and collaborated with a team of web designers to maintain and update the website.

## Projects

---

### Portfolio Website [JavaScript, HTML, CSS, Bootstrap, jQuery]

A user-friendly and easy-to-read static web application built to showcase my previous experiences, technical skills and software projects.

### iClinic [Java, JavaFX, SQL]

A fully configurable GUI clinic portal developed to provide an interface for clinicians to efficiently automate their paper-based processes and maintain their accreditations.

### Rock, Paper, Scissors [JavaScript, HTML, CSS]

An engaging web application game developed to compare and showcase the results of the choices: rock, paper, or scissors, selected by the user vs. computer.

## Leadership Experience

---

### LAMP 1.0 Mentor @ Western University

Aug 2020 – Present // London, ON

- Develop and maintain a mentoring relationship focused on helping first-year students make a smooth transition, acclimate to campus, and establish a sense of belonging.
- Demonstrate leadership potential and willingness to challenge and support new students.
- Work both independently and dependently and as part of a team with fellow LAMP Mentors and Mentees.

### Engineering Student Ambassador @ Western University

Jan 2020 – Present // London, ON

- Represent Western Engineering by meeting 50+ prospective students, families, and special guests at events such as Fall and March Break Open Houses.
- Display willingness to share information about Western Engineering's community, student life, and campus resources.
- Conduct campus tours for future students.

## Skills

### Programming Languages

JavaScript, Java, HTML, CSS, C#, SQL

### Libraries & Frameworks

jQuery, React, Bootstrap, AngularJS

### Tools & Platforms

Git, Netlify, Firebase, Unity, RESTful API, JavaFX, Atom, UML, HTTP

### Categories

Object-oriented programming,  
Frontend web development,  
Database management

### Design

AutoCAD, Canva

## Relevant Courses

- Software Design
- Algorithms and Data Structures
- Web Technologies
- Software Requirements & Analysis
- Database Management Systems

## Awards

- **Dean's Honour List**  
// May 2019, 2020
- **DELFL (Diplôme D'Etudes en Langue Française)**  
// June 2019
- **Western Scholarship of Excellence (\$2000)**  
// Sept 2018

## Foreign Languages

English, Arabic, French

## Interests

Skating, reading, painting, travelling
